The Chill-Its® 6603 Evaporative Cooling Band uses a super evaporative PVA material to absorb water to then allow it to evaporate slowly for instant, long-lasting cooling relief. This super-evaporative PVA material creates a feeling colder than ambient air temperature for immediate cooling. Designed to hold more water for longer-lasting cooling. Can be used for hours or for quick relief. Reusable, just re-wet to activate. This neck cooling wrap can be securely fastened around the neck by pulling one end through the slit on the opposite end for all-day cooling that stays put.

HOW TO ACTIVATE

Run the PVA cooling towel under water for one minute or until saturated, wring out excess water, twirl or snap in the air for no drip cooling. Drape towel around neck and pull end through the slit for a secure fit and instant cooling. Material will dry stiff, rewet to until soft and ready to use.

This evaporative cooling towel is the perfect cooling headwear for anyone working in the heat and exposed to possible heat-related illnesses like heat cramps, heat strokes, or heat exhaustion are possible. Great for workers in construction, carpentry, mining, landscaping, OR for outdoor activities like camping, yoga, baseball, softball, soccer, running, biking,
